T.C. Ziraat Bankası A.Ş. (hereinafter Ziraat Bank or the Bank) is the largest bank and deposit bank in Turkey and leads the sector regarding asset size, equity, loans, deposits, net profit and number of branches as of FYE2017. The foundation of the Bank dates back to 1863, the establishment of the "Homeland Funds". Accordingly, the Bank is accepted as one of the oldest banks in the Turkish Banking Sector with its over 150-year history. The Bank's shares which were entirely owned by the Prime Ministry Undersecretariat of Treasury were decided to be transferred to the Turkish Asset Fund under the Prime Ministry with the decree decision of the Council of Ministers dated January 24, 2017 and the transfer has been finalized as of September 21, 2017.

As of 1H2018, the Bank served customers with 24,572 employees. The Bank services through a branch network of 1,781, the widest of the Turkish Banking Sector, including 1,759 domestic and 22 overseas branches, over 7,000 automatic teller machine (ATM), online and mobile banking and call center. The Bank serves in 18 different countries at 95 service points through its international branches, subsidiaries and representative offices. Additionally, the bank has a correspondent banks network of approximately 1,800 in over 140 countries.

Strengths	Constraints
<ul> <li>Sustained improvement in financial intermediary function and ongoing increase in market share</li> <li>Resistive and sustainable profitability ratios standing continuously above the sector averages</li> </ul>	<ul> <li>Sector-wide structural maturity mismatches despite the Bank's improved and above sector average term structure of deposits</li> <li>Improved but below sector average service</li> </ul>
Sector leading market efficiency	income level
<ul> <li>Comparatively high asset quality mostly thanks to NPL ratio at almost half of the sector average</li> <li>Well diversified funding sources and improved average</li> </ul>	• Restrained net profit due to above sector average increases in financing and operating expenses
maturity of deposits	• Challenging market conditions with further
<ul><li>Below sector average OPEX level</li><li>Improved credit risk concentration of total loans</li></ul>	detrimental impact on investment climate, profitability and asset quality
• Ongoing above sector average NIM and profitability ratios	Wholly state-owned shareholding leading to higher sensitivity level of its balance sheet composition to probable impacts of public

Superior support level

composition to probable impacts of public authorities
