Key rating drivers, as strengths and constraints, are provided below.

Strengths

- Sustained sales revenue and volume stability throughout the analyzed period,
- Maintained a balanced and healthy financial leverage profile,
- Improved interest coverage ratios driven by a substantial reduction in interest expenses,
- Strong collection efficiency supported by robust collateralization and a reputable client base,
- Long track record in the sector and accumulated know how,
- Compliance with corporate governance principles as a publicly traded Group.

Constraints

- Despite improvement, suppressed core profitability margins due to sector-wide constraints,
- Negative CFO and FOCF as of FY2025,
- High import dependency of the main raw materials being a sector-wide issue,
- As actions for a global soft-landing gain prominence, geopolitical risks and decisions with the potential to adversely affect global trade are engendering considerable uncertainty.

Considering the aforementioned factors, the Company's the Long-Term National Rating has been affirmed at 'AA- (tr)'. Sustainable operational performance, predictable profit margins, healthy leverage indicators, low level of doubtful receivables, with its well-positioned subsidiaries, as well as ongoing uncertainties globally have been evaluated as important indicators for the ratings and the outlooks for Long and Short-Term National Issuer Credit Ratings are determined as 'Stable'. The Company's debt and equity level, additional cash flows that will be generated by completed and ongoing investments, profitability indicators and expansion in export markets will be closely monitored by JCR Eurasia Rating in upcoming periods. The macroeconomic indicators at national and international markets, as well as market conditions and legal framework about the sector will be monitored as well.
